Instructional Literacy for Library Educators:

3 of 3 review helpful A good read especially for a textbook By jessi707 I bought this book for an information literacy class Normally I dread opening textbooks and struggling through pages of boring dry information but this book was written in an easy conversational tone that made it more interesting to read Char Booths strategies are helpful and practical I would definitely recommend this book to anyone who is charged Whether or not instruction appears in their job titles librarians are often in the position of educating their users colleagues and peers to successfully locate and evaluate information Because MLIS education tends to offer less than comprehensive preparation in pedagogy and instructional design this much needed book tackles the challenge of effective teaching and training head on Char Booth an avid library education and technology advocate introduces a series
