course guides made Guide to the Library of Congress Classification, 6th Edition (Library and Information Science Text Series):

Like earlier editions this thoroughly updated sixth edition of the classic textbook provides readers with a basic understanding of the Library of Congress Classification system and its applications. It serves primarily as an introductory textbook for core LIS courses in cataloging and classification and in organization of information but also as a reference work for practicing librarians. It includes an appendix containing models for subarrangement. About the Author Lois Mai Chan was professor College of Library and Information Science University of Kentucky Lexington. Sheila S. Intner is professor emerita of library and information science at Simmons College Boston MA and was found in
