communications in your life and Geographies of Mobilities: Practices, Spaces, Subjects:

Over the past fifteen years or so there has been a widespread and increasing fascination with the theme of mobility across the social sciences and humanities. Of course geographers have always had an interest in mobility but as yet they have not viewed this in the same mobility turn as in other disciplines where it has been used to critique the standard approaches to the subjects. This text brings together leading academics to provide a revitalised geography of mobility. Movement, mobility, speed, travel. Just a few of the words used to frame modern geographies. But what does this new mobilities paradigm really describe? This glorious book tells you through a series of acute and fascinating contributions which open up the
