0 of 0 review helpful A valuable resource for readers By Late Night Reader A very helpful and well documented resource for those readers looking for something good to read Divided into categories there is something for everyone I used it to list more than 3 dozen possible books to explore and I return to it from time to time as my tastes change There is always a book around the corner that you hadn't known The response to Nancy Pearl's surprise bestseller Book Lust was astounding the Seattle librarian even became the model for the now famous Librarian Action Figure Readers everywhere welcomed Pearl's encyclopedic but discerning filter on books worth reading and her Rule of 50 give a book 50 pages before deciding whether to continue but readers over 50 must read the same number of pages as their age became a standard MO From Publishers Weekly Rarely does a member of that unjustly maligned species the librarian attract the kind of attention Pearl did when she founded the first citywide reading program in Seattle in 1998 Many readers will seek her advice in this companion volume
