By Danny P. Wallace, Connie J Van Fleet : Knowledge into Action: Research and Evaluation in Library and Information Science filed by the acrl board on february 2 2015 adopted by the acrl board january 11 2016 this work is licensed under a creative commons attribution noncommercial an experiment is a procedure carried out to support

refute or validate a hypothesis experiments provide insight into cause and effect by demonstrating what outcome
Knowledge into Action: Research and Evaluation in Library and Information Science:

0 of 0 review helpful Left much to be desired By Samuel Willis This introductory text in librarianship was overly verbose wordy It sometimes strayed outside the scope for which it was intended and made inaccurate philosophical claims It does however contain some good information 0 of 1 review helpful Textbook By Bethany Coke I bought this for a class I was taking The only book currently available that comprehensively integrates research and evaluation for evidence based library and information science practice P rovides a clear and readable description of research techniques within the context of librarianship and as such it is well suited as a textbook for students of all ages Australian Library Journal The chapter on interviews
