4 of 4 review helpful Two competing books on an important building By kb from la Two books on the history of the Los Angeles Central Library were published in 2016 mdash one by Stephen Gee and this volume by Kenneth Breisch Possibly neither author or publisher was aware of the other book because there is a fair amount of overlap In other words what appears to be a lot of duplicate research produced books sufficiently si In the most comprehensive investigation of the Los Angeles Public Library rsquo s early history and architectural genesis ever undertaken

Kenneth Breisch chronicles the institution's first six decades from its founding as a private library association in 1872 through the completion of the iconic Central Library building in 1933. During this time the library evolved from an elite organization ensconced in two rooms in downtown LA into one of the largest. About the Author Kenneth A Breisch is associate professor in the School of Architecture at the University of Southern California.
