By Dennis C. Canterbury : Capital Accumulation and Migration (Studies in Critical Social Sciences) social science dictionary with a durkheim bias linked to andrew roberts social science history the importance and the relevance of research issues ensuring the competitiveness of cross border cooperation projects in the tourism and

hospitality industry by Capital Accumulation and Migration (Studies in Critical Social Sciences):

Despite the renewed interest in the impact of migration upon economic development in general remarkably few studies have taken up the ways in which the geographic flows of labor impact capital accumulation itself Capital Accumulation and Migration attempts to fill this gap by analyzing a wide breadth of literature dealing with the changes to the global economy under neoliberalism with a particular focus on examining the ways in which the migration process About the Author Dennis C Canterbury Ph D 2000 in sociology Binghamton University State University of New York is Associate Professor of Sociology at Eastern Connecticut State University He has published extensively on development issues includin
